LUMHS Provides Free Access to Educational Resources

Liaquat University of Medical & Health Sciences (LUMHS) is committed to widening access to knowledge beyond its enrolled students and provides free educational resources to members of the wider community. Visiting researchers, alumni, healthcare practitioners, and other external users may access the university library's reading facilities and public access to online resources and internet facilities are available for educational and research use. Open-access learning material, public lectures, and academic events are shared through the university's website and official social media channels, while workshops, seminars, and continuing professional development sessions are open to external participants, including healthcare professionals and local community members. Through these provisions, LUMHS supports lifelong learning, strengthens professional capacity in the region, and advances SDG 4 (Quality Education) by making its academic resources accessible to those outside its student body.

Library Resources for Community Schools

LUMHS shares its library resources with underprivileged schools in the surrounding community, extending access to quality learning materials for children who may otherwise have limited access to books and educational resources. The library provides age-appropriate educational resources and maintains a dedicated section for school children, creating a welcoming space that encourages reading, curiosity, and a habit of lifelong learning from an early age. The school children from SOS Village School, LUHMS Public School and Govt Girls primary school Jamshoro students come to visit library and use library resources.

Through this initiative, LUMHS contributes to reducing educational inequality in the local community, supports the learning of disadvantaged children, and strengthens the bond between the university and its neighbors. The programme reflects the university's commitment to inclusive access to knowledge and aligns with SDG 4 (Quality Education) and SDG 10 (Reduced Inequalities).

Online Resources Available for Those not Studying at University

Open-Access Scientific Journals of LUMHS

Liaquat University of Medical and Health Sciences (LUMHS) publishes two scientific journals, the Journal of Liaquat University of Medical and Health Sciences (JLUMHS) and the Liaquat Medical Research Journal (LMRJ). Both are freely accessible to the scientific community, with no subscription or access fees for readers.

Journal of Liaquat University of Medical and Health Sciences (JLUMHS)

JLUMHS, published from Jamshoro, Pakistan, carries original manuscripts, case reports and reviews on topics related to medical and health sciences. It is recognized by the Higher Education Commission of Pakistan (HEC) and the Pakistan Medical and Dental Council (PMDC), and is partially sponsored by HEC. The journal is indexed in Scopus, Google Scholar, DOAJ, Embase and the Index Medicus for the WHO Eastern Mediterranean Region (IMEMR).

Liaquat Medical Research Journal (LMRJ)

LMRJ is a Gold Open Access journal publishing basic, clinical and para-clinical aspects of medical sciences, in the form of original articles, reviews and case reports. Its scope covers Anatomy, Biochemistry, Biotechnology, Physiology, Pharmacology, Parasitology, Hematology, Microbiology, Radiotherapy, Radiobiology, Medical Imaging, Medical

Informatics, Medical Physics, Nutrition and Virology, together with animal experimental studies.

LUMHS Publishers: Advancing Open Access to Knowledge and Health Education

Liaquat University of Medical and Health Sciences (LUMHS) contributes to education, research, and public health awareness through its publishing activities. By offering free publication opportunities and free public access to educational and scholarly content, LUMHS Publishers supports the dissemination of knowledge beyond academic institutions and makes valuable learning resources more accessible to students, researchers, healthcare professionals, and the general public.

Through the sharing of educational materials, research findings, and health-related information, LUMHS helps promote evidence-informed learning, improve health literacy, and strengthen public awareness of health and well-being. Removing financial barriers to accessing published knowledge can support equitable learning opportunities and enable a wider audience to benefit from scientific and educational resources.

LUMHS FM 96.6

Public Health Awareness through FM Radio

LUMHS regularly organizes health awareness sessions broadcast on FM radio to promote public health education and disease prevention. The programme reaches a wide audience, including communities in remote areas, with reliable information on common and emerging health concerns.

Eminent medical specialists from various disciplines take part in these interactive sessions, explaining the causes, symptoms, prevention, and management of diseases in clear, simple language. Listeners may put questions to the experts during live broadcasts, allowing direct engagement between specialists and the community.

The initiative helps dispel myths and misconceptions about diseases and encourages early diagnosis, healthy lifestyle practices, and better use of healthcare services. Through consistent broadcasts, LUMHS strengthens the connection between medical professionals and the public and fosters a culture of health awareness and preventive care, in line with SDG 3 (Good Health and Well-being).

LUMHS Web TV

Liaquat University of Medical and Health Sciences (LUMHS) proudly introduces Liaquat **University's Web TV**, an innovative digital platform designed to promote health, social, and educational awareness among the public. This pioneering initiative serves as a valuable resource for students, faculty, researchers, and the wider community, showcasing the diverse academic and outreach activities taking place across the university.

LUMHS Web TV plays a leading role in advancing health education, offering informative programs on preventive care, disease management, mental health, and overall well-being. It also highlights significant social themes such as gender equality, environmental sustainability, and community development, encouraging informed discussion and public engagement.

In addition, the channel broadcasts lectures, seminars, and workshops organized by LUMHS, ensuring that educational content and expert insights are accessible to a broader audience. Viewers can also enjoy interviews with distinguished academics and professionals, providing perspectives on cutting-edge research and innovation

Liaquat University of Medical and Health Sciences (LUMHS) has been leveraging the **Microsoft 365 platform since 2013**, providing comprehensive, lifelong free services to all its students, faculty, and staff. This seamless integration ensures that all alumni continue to benefit from these services even after their graduation, enjoying access to essential tools that support their ongoing professional and academic endeavors. This initiative underscores LUMHS's commitment to equipping its community with the digital resources needed for success in today's interconnected world.

Online Digital Library: In addition to our physical library, LUMHS offers access to an extensive online digital library using resources Higher Education Commission Pakistan. This resource enables students, faculty, and researchers to access around 75,000 electronic content available through the Digital Library Programs, including e-books, journals, research papers, and academic databases, from anywhere at any time.

Turnitin License for Research Integrity: To uphold the highest standards of academic integrity, LUMHS provides researchers with Turnitin license accounts. This powerful tool helps detect and prevent plagiarism, ensuring that all academic work is original and properly referenced.

Official Email Accounts for Alumni: Recognizing the importance of staying connected, LUMHS offers official email accounts for alumni. These accounts facilitate ongoing communication, access to university resources, and participation in alumni events, fostering a strong and supportive alumni network.
