Outreach Educational Activities for the Wider Community

Community Outreach and Educational Engagement

LUMHS is committed to extending its educational resources and professional expertise beyond the campus to benefit the wider community. Through dedicated outreach activities, the university engages alumni, local residents, and vulnerable and displaced groups, in support of its mission of service and its contribution to the Sustainable Development Goals.

Public Health Education for Local Residents

LUMHS delivers public health awareness sessions, health education seminars, and medical camps for residents of Jamshoro, Hyderabad, and surrounding areas. These activities address priority concerns such as preventive healthcare, nutrition, hygiene, safe water and sanitation, maternal and child health, and climate-related health risks. By making health knowledge accessible, the university supports informed decision-making and healthier communities, contributing directly to SDG 3 (Good Health and Well-being).

Support for Vulnerable and Displaced Groups

The university works in partnership with shelter homes and the SOS Children's Village to reach marginalized groups, including women, children, and destitute or displaced persons. Activities include health screening, health education, hygiene and nutrition guidance, counselling, and psychosocial support for children and caregivers. These initiatives advance SDG 1 (No Poverty), SDG 4 (Quality Education), SDG 5 (Gender Equality), and SDG 10 (Reduced Inequalities).

Karwan-e-Sehat- School Health Camp

Karwan-e-Sehat: School Health Outreach Initiative

Overview

On 13 May 2025, LUMHS organized Karwan-e-Sehat, a community health outreach initiative at Government Girls High School, LUMHS Colony, Jamshoro. The initiative brought essential healthcare services and health education directly to the under resourced school community, with a focus on preventive care, early identification of common health concerns, and promotion of healthy practices among students.

Reach and Services

Approximately 500 students (400 female and 100 male) benefited from health screening and medical consultation. Services were delivered through five dedicated service areas: General Physician, Nursing, ENT, Pediatrics, and Dentistry. Students received assessments and

guidance on general health, growth, vision, ENT and dental concerns, and other common health issues.

Health Education

Awareness sessions addressed personal and hand hygiene, healthy lifestyle practices, heat-stroke prevention, and timely healthcare-seeking behavior. Health information was also collected during the activity to improve understanding of students' needs and to inform future community health interventions.

Support Materials

Oral-hygiene essentials and stationery packs were distributed to reinforce healthy habits and support students' educational needs.

Health and Wellbeing Outreach: Community Visit to Dar-ul-Sukun

Liaquat University of Medical & Health Sciences (LUMHS), Jamshoro, delivers outreach programmes and projects in the local community to promote health and wellbeing. On 29 May 2025, LUMHS students' / a team from LUMHS visited Dar-ul-Sukun at Rashidabad, Tando Allahyar, to conduct a health awareness session / medical camp / wellbeing activity for its residents.

Approximately 250 residents of shelter home benefited from the activity, which covered health screening, hygiene, nutrition, and general wellbeing guidance.

The initiative reflects the University's commitment to community engagement and student volunteering, and to improving the health and wellbeing of vulnerable groups beyond its campus, in line with SDG 3 (Good Health and Well-being).

LUMHS Promotes Community Health and Hygiene Awareness Through Outreach Programme at IRM Smart School

Liaquat University of Medical & Health Sciences (LUMHS), Jamshoro, organized a Health and Hygiene Community Outreach Programme at IRM Smart School to promote health awareness and encourage healthy hygiene practices among schoolchildren. The initiative aimed to educate students about the importance of personal hygiene, handwashing, oral health, environmental cleanliness, safe drinking water, and preventive healthcare through age-appropriate health education and interactive awareness activities. The programme provided an opportunity for students to learn practical measures for maintaining personal cleanliness, preventing communicable diseases, and adopting healthy habits in their daily lives, both at school and at home. By engaging with the school community, LUMHS extended its health education initiatives beyond the university campus and contributed to developing health-conscious behaviours among children at an early age. This outreach activity reflects the University's commitment to community engagement, preventive healthcare, and health promotion, while strengthening collaboration between higher education institutions and local schools. The initiative directly supports SDG 3 (Good Health and Well-being) through disease prevention and health awareness, SDG 4 (Quality Education) by promoting health literacy among schoolchildren, and SDG 6 (Clean Water and Sanitation) through awareness of hygiene, sanitation, and safe water practices.

HAND WASH TECHNIQUES

Community Educational Outreach and Free Health Camp for the Wider Community

Overview

LUMHS organized a Free Medical Health Camp and Mobile Medical Clinic in an underserved rural community of Sindh to provide accessible healthcare and health education to people who face barriers in reaching regular medical facilities. The initiative was delivered by LUMHS faculty members, medical professionals, SDG volunteers, and student volunteers. By taking services directly to residents, the university extended its expertise beyond the campus and contributed to health equity and sustainable community development, in line with SDG 3 (Good Health and Well-being).

Objectives

- Provide free medical consultation and basic healthcare services to underserved community members.
- Improve access to healthcare for rural populations.
- Provide free essential medicines to patients identified by the medical team.
- Promote preventive healthcare and health awareness.
- Identify common health concerns requiring further attention.
- Encourage timely use of healthcare services.
- Engage faculty, students, and SDG volunteers in meaningful community service.

Free Medical Services

Services were provided at no cost and included medical consultation and clinical assessment, basic health screening, identification of common health conditions, health counselling, advice on follow-up and referral where required, and free medicines based on medical assessment and availability. Providing medicines alongside consultation addressed immediate needs and reduced the financial burden on low-income families.

Mobile Medical Clinic

The mobile clinic reached residents within their own community, addressing barriers such as geographic distance, transportation difficulties, financial constraints, limited access to consultation, and low awareness of preventive care. This community-oriented model allows health professionals to engage directly with populations that may otherwise have limited access to services.

Community Education and Awareness

Alongside clinical care, the camp delivered health education sessions with a particular focus on women and children. Topics included family planning, hygiene, and nutrition as preventive strategies. Community members were encouraged to adopt healthy practices and seek professional advice promptly, strengthening their ability to make informed decisions about their health.

Role of Faculty, SDG Volunteers, and Students

Faculty members and healthcare professionals contributed clinical expertise, while SDG and student volunteers supported registration, patient flow, community awareness, health education, and logistics. This gave students practical exposure to community health needs and the opportunity to apply academic knowledge in a real-world setting.

Free Medical Camp for Women and Child Overall Health and Nutrition

Rural and Underprivileged Area of Sindh

Free Medical Camp and Awareness Session on Women's and Child Health

Women and children in rural and underprivileged areas of Sindh often have limited access to maternal and child healthcare, reproductive health services, and education on preventive health and hygiene. Distance, cost, and a shortage of trained healthcare providers are the main barriers.

In line with its commitment to community service and public health, Liaquat University of Medical & Health Sciences (LUMHS) organised a free medical camp and awareness session focused on women's and child health, family planning, and overall health and hygiene. The initiative brought clinical care and preventive health education directly to the community, supporting SDG 3 (Good Health and Well-being), SDG 5 (Gender Equality), and SDG 10 (Reduced Inequalities).

Objectives

- To provide free medical consultations to women and children
- To promote maternal health, child health and preventive care
- To raise health awareness among rural families
- To strengthen LUMHS's engagement with the communities it serves

Activity

LUMHS conducted a free medical camp for women and child health in a rural, underprivileged area of Sindh. more than 500 women and children were examined, the department of Gynecology and Obstetrics and Pediatrics), provided services such as antenatal checkups, nutrition assessment, immunization advice, free medicines and health education,

Outcomes

- Women and children received healthcare services at no cost
- Access to maternal and child health care was extended to an underserved area
- Patients requiring further treatment were identified for referral [confirm if applicable]
- Health awareness and community trust in LUMHS were strengthened

LUMHS Alumni Gala: Celebrating Connections and Achievements

Liaquat University of Medical & Health Sciences (LUMHS) organizes its Alumni Gala annually to celebrate the achievements, professional contributions, and lifelong association of its graduates with their alma mater. The event brings together alumni from across Pakistan and different parts of the world, providing an opportunity to reconnect with former classmates, faculty members, and the university community. The Alumni Gala serves as a platform for celebrating the professional accomplishments of LUMHS graduates, strengthening institutional relationships, fostering networking opportunities, and encouraging alumni engagement in the University's academic, research, and community development initiatives. By bringing together its global alumni network, LUMHS reinforces a lasting sense of belonging, institutional pride, and shared responsibility towards the advancement of medical education, healthcare, and society. The initiative also supports SDG 17 (Partnerships for the Goals) by strengthening global networks and institutional collaboration, and SDG 4 (Quality Education) through continued engagement with graduates and the exchange of professional knowledge and experience.
